

Discover the
shortest route to
more efficient...
and profitable
shop operations!

International Conference
and Exposition

OCTOBER 10-13 • SAN DIEGO

RSS Solutions Booth #731

**Bring this card to booth #731 for a chance to win
a hand-held Global Positioning System by Garmin!**

Locate a better solution for planning and scheduling

For a closer look at how to plan, predict and control your shop operations better – to reduce costs and serve clients more profitably – stop by the **RSS Solutions Booth #731** at the 2004 APICS International Conference and Exposition.

RSS Solutions Inc. offers a fully integrated Advanced Planning, Scheduling and Execution (APS) solution known as **NaView**, built specifically for complex manufacturing environments, that can help you exceed customer expectations while improving your overall financial performance.

- **Meet Pat Casey, Chief Process Engineer at Xtek, Inc., who will personally show you how NaView helped Xtek reduce cycle time by 50% with WIP savings of over \$800,000.**
- **PLUS, you'll have a chance to WIN a hand-held Global Positioning System by Garmin** – a world leader in navigation and communication.

Navigate and know exactly where you are... in your business with NaView... and in the world with a GPS system. See you at **booth #791!**

Michael Cox

President
RSS Solutions Inc.
